

Sydney open, that you may
read them if you have time
& inclination. The article
on the Price of Reading I think
pretty good. When you have
read them please send them
all up safe & deliver them
betimes to Willard Phillips.
By the way, my letter from
Sydney & the Extras did not
arrive till Friday last week.
There they delivered on Thursday
morning as I directed, I wonder
you will please, after sending
Sydney's letter to me, do it up
with any other matters there may
be for me & send it directed
to me, by Cape's Express, at
no 9 Elm Street, before two
o'clock it will reach me the
same afternoon. It is not
an agreeable place for letters

to go to, but as there is no absolute
impropriety in it & it is not very
far from the office, I think you had
some of you better do the job & sending
than entrust it to the energetic
Willard. If any of the files are
still in town I hope they will send
me at the same time a line telling
me of the success of the pete but
event of any other matters that
have happened since Monday. I
think you had better use the same
express whenever you have any-
thing to send to me, - as I am
told that Liberty is greatly
wroth with the Standard. He told
his wife that he did not think
that he could give her any money
for the Dedham Tabl this year -
because part of the proceeds
would go to sustain the Stand.
He said he did like to have any
of the partnership funds go to the

Standard. Upon what she said
that she did not like to have
so much of the partnership fund
go to Liberty Party! I don't think
S. is in a very wicked frame of
mind, but I think he is in one
which renders it unsuitable to our
dignity to ask him to petition
for us, just now. In case of any
sudden emergency in an after-
-noon, I should have no scruple
about asking him to take a
vote, if I were you.

With love to all, I am
ever faithfully yours

Edmund Quincy.

P.S. Got true that brother Stimes
is in jail for obtaining money on
false pretenses? If so, the world
has come to an end with him
sooner than I expected. But
I don't believe it.
